

Rabbit Population Experiment

Hypothesis: What do you think will happen to the population of rabbits as their habitat is reduced? Be specific.

Number of Rabbits	Ample Land	Moderate Land	Little Land
Year 1			
Year 2			
Year 3			
Year 4			

How did the population of rabbits change when the habitat changed?

Reflect on your hypothesis. Was it correct? Compare your hypothesis to your experimental results.

What are some factors that might cause an animal's habitat to be reduced?
